ROTCOD YNIT INSTRUCTIONS

This is you:

Your goal is to navigate the maze to cure the viruses.

You move around using the arrow keys, and you have 30 seconds to collect as many viruses as you can, before you must return to your spaceship, or you will fail.

Every virus you cure grants you 10 points and 1 extra second on the clock, along with a powerup called “osmosis”. During osmosis your appearance is distorted, and you can pass through one wall.

Try to get as high of a score as you can, and return to your spaceship before time runs out!
