**Freedom Farkle**

**Instructions for Playing**

1. The first player will roll six dice at the same time. They will then remove any scoring dice of their choosing.
2. After removing the dice, they may end their turn or re-roll the remaining dice to try to obtain more points.
3. Each player needs to get 1,000 points in a single turn to get on the board.
4. 'Farkle' occurs when no point dice have been rolled. The player loses all the points they have collected during their turn, and their turn is ended.
5. If all dice rolled are scoring dice, then the player must continue their turn and re-roll all six dice. They can then decide on whether or not they want to keep playing.
6. If a player has obtained exactly 10,000 points, then they win and the game is over. If they have obtained over 10,000 points, then the opposing player has one more turn to try and get more points than that player. If they do not end up getting more points, then the player wins. Otherwise, the opposing player wins.
