Cleaning up Crime!

The city's crime rate is rapidly increasing! New people are becoming criminals each day. It’s okay though because new, lawful people move into the city each day. It is up to you to clean up the crime!

The goal of the game is to get the board into a stable state.

Click on the thieves to remove all thieves in a 3x3 area around where you click.

You will get points for each thief that is removed.

The game will end when either no more thieves can be created, or there are no more people left.
