Sport Sort

You are a voluntary PE teacher who was in charge of the field day event. You have been under the sun for quite some time so you are exhausted. You still need to clean up as many of the balls that were left over from the field day event before you pass out.

The goal of this game is to make rows of 3 of the same ball to collect them. Points are awarded for making of at least 3 in a row but no more than 4. 3 points will be added to your score no matter the match. The game is over when you reach 100 moves, in other words you are working until you have no energy left.

Clean up as much of the field as possible! The more you clean now..., the less you have to clean tomorrow!
