Welcome to Candy Match!

It is necessary for the tiny blue monster to eat all its food in order to grow big and strong. Your job is to help navigate through his favorite candy. Munch away!

The goal of this game is to accumulate points by creating candy matches.

Use the arrow keys or the ‘w’, ‘a’, ‘s’, and ‘d’ keys to move the cute blue monster to create matches and collect points. When the blue monster moves, it swaps space with that of an adjacent candy.

The game is over when all your moves have come down to zero.

Help that blue monster much away its candy or else it will get sad.
