You are alone, outside the boarders of the first Mars settlement, with your only vehicle damaged beyond repair...

Your only goal is to fight off the aliens as long as possible, in order to do as much damage to the alien horde as possible...

If you kill three aliens, you are awarded one point, with an extra point given for every extra square added to the match...

The game is over when you get tire, run out of moves, and get eaten...

Remember, your fellow colonists need you to hold off the horde long enough for them to barricade themselves to safety...

GOOD LUCK!!!
